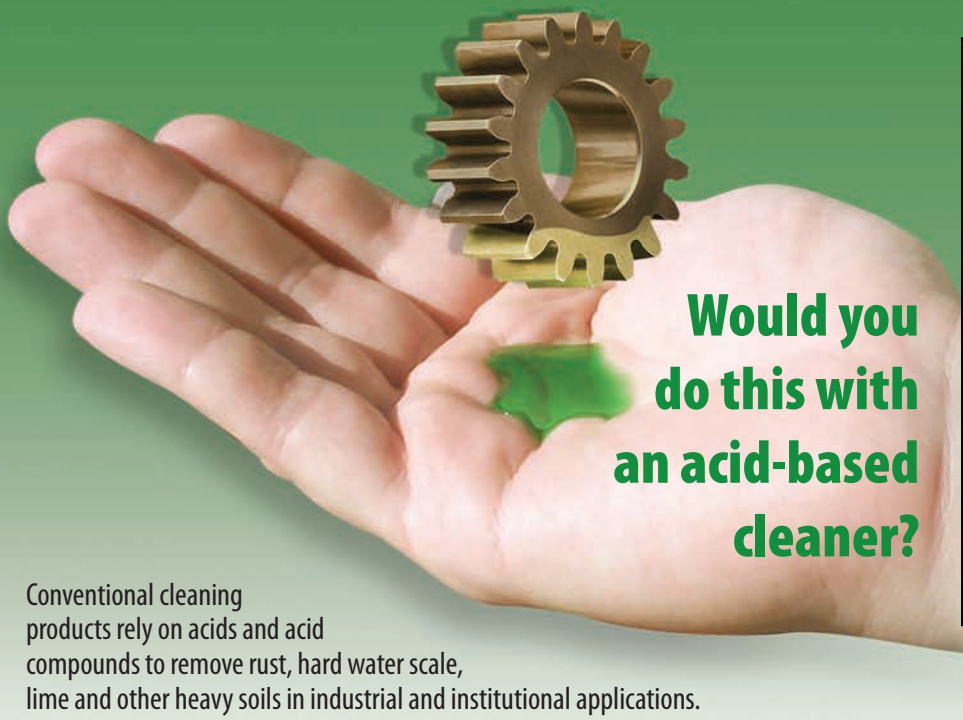
INDUSTRIAL & INSTITUTIONAL MULTI-FUNCTIONAL ACID REPLACEMENT CLEANER

MEGA LAB ENVIRO-TERRA

SCIENCE AND NATURE WORKING TOGETHER



Would you do this with an acid-based cleaner?

Safer Alternative to Hazardous Acids & Acid-Based Cleaners	
Acid/Acid-Based Cleaners	ENVIRO-TERRA
Contains acid	Organic salts
Unsafe	Safe
Toxic Fumes	Non-fuming
Hazardous waste	Biodegradable
Corrosive to Metals	Non-Corrosive to Mild Steels
Special labeling, shipping & handling	Limited *
High Performance	Performance equals or surpasses acids

* CDN. WHMIS classification requires Corrosive on the label due to pH.
* USA Department of Transport classification Non Regulated.
* Exempt from USA OSHA and EPS Special Handling and Personal Protection Requirements for hazardous materials.

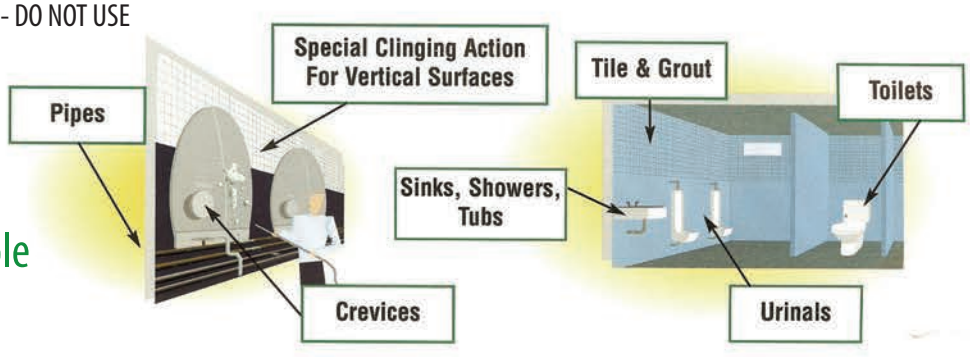
Conventional cleaning products rely on acids and acid compounds to remove rust, hard water scale, lime and other heavy soils in industrial and institutional applications. These conventional products all to often have unpleasant side effects like skin burns and often invisible toxic fumes, having an impact not only to the individual but also harmful to the surfaces they clean as well as harmful to the environment.

EnviroTerra is non-toxic, non-corrosive to mild steel, non-fuming and biodegradable. It is safe for intermittent skin contact* and you don't have to protect yourself against hazardous fumes. It is safe to use on most surfaces not harmed by water.
*Prolonged or repeated skin contact may cause mild irritation.

CAUTION: ENVIRO-TERRA should be used only where substrate is of good quality and wholly intact. ALWAYS test in inconspicuous area prior to use. May dull, discolour or darken some metal surfaces.
ENVIRO-TERRA is a LOW pH Acid Replacement product - DO NOT USE where low pH products would not be used.

FACT: Gets the job done safely, reduces labor costs, all natural, extremely effective & biodegradable

Surveys have shown one of the greatest savings is the labour factor. EnviroTerra is easy and fast to use. Its special clinging action allows for a longer dwell time on vertical surfaces. It's the perfect product for complex surfaces - piping, valves, equipment crevices - including the ones your present cleaners don't reach. This multi-functional product eliminates the need to purchase and use a variety of cleaners for different applications. Typically calcium, lime, rust, mold, soap scum and mildew can be found in washrooms, requiring the use of two or more cleaning products. EnviroTerra does the combined work of multiple cleaners. EnviroTerra is especially effective for cleaning urinals and toilets without the need for harsh acid products.

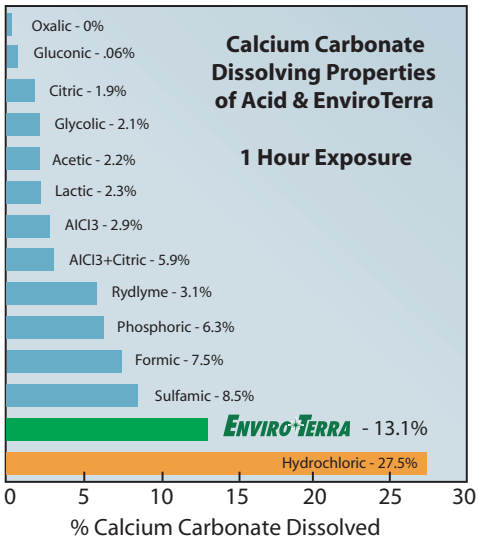


Get the FACTS on ENVIRO-TERRA

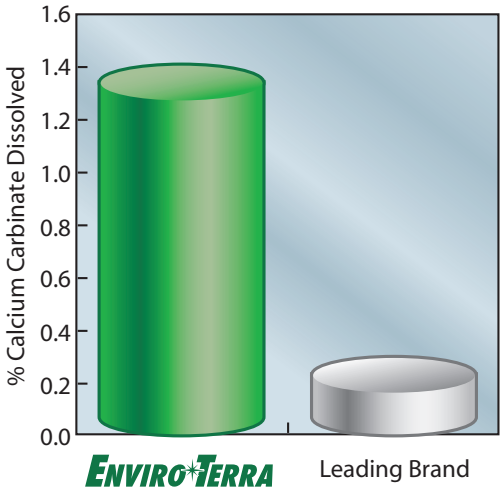
FACT: Superior Descaling Properties

Test Descaler	Calcium Carbonate Removed (gms)
Commercial Descaler (Liquid)	0.1838 gms
Commercial Descaler (Powder)	0.5021 gms
ENVIRO-TERRA	0.9821 gms

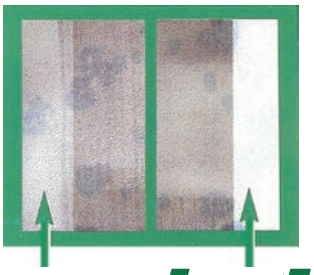
FACT: EnviroTerra does the work of an acid



FACT: 4.5 times faster than a leading brand acid cleaner



FACT: Superior removal of heavy build-up of soap scum, heavy mineral deposits, rust and other soils in bathroom and kitchen environments



EnviroTerra cleans and revitalizes a wide range of materials in a myriad of applications.
