PRODUCT GUIDE

From these modest beginnings, Mega-Lab Manufacturing Co. Ltd. now operates primarily out of a combined warehousing, distribution and manufacturing facility in Concord, Ontario. Through our Product Consultants/Sales Reps servicing a variety of industrial/municipal applications, to 12 National Distributors as well as 14 International Distributors/Partners on almost every continent. More so our private label manufacturing capabilities have helped spread the quality, innovation and CREATIVE nature of our chemistries even further.

SEE OUR DIFFERENCE

Since 1995, Mega-Lab International has successfully grown into a world-wide manufacturer, curating clients from South Africa, China, the Philippines and many more.

Our experience has proven us successful as a stable, profitable corporation, especially when it comes to the specialty chemicals marketplace. We provide various client services including product line, sales techniques as well as marketing and promotional support. At Mega-Lab we know that the specialty chemicals marketplace can be confusing, which is why we are here to help you navigate it. We'll go the distance, so you don't have to.

AIR FRESHENERS

ABATE SCENTLESS

State of the art technology makes it highly effective in controlling osmogenes that are present in undesirable odours. ABATE SCENTLESS eliminates malodours such as fish, sulfur, smoke, ammonia, onion, garlic etc. but does not eliminate desirable odours. Once ABATE SCENTLESS absorbs an odour it will not be released again.
A permanent binding of the odour takes place. Excellent for use in kitchen, bathrooms, carpets and upholstery, automotive, sewage treatment plants, landfills, waste collection/recycling facilities, processing plants, rendering plants etc.

BAN-O-DOR

For Extreme Odour Control Issues - Formulated to address the most offensive malodour issues, including garbage bins / chutes, bathroom / urinal odours, diaper pails, water damage mildew, smoke and decaying food remnant odours. Original Ban-O-Dor essential oil blend.

BIOMASTER FRESH ENCOUNTER

Dual Action Odour Counteractant Cleaner - A unique and comprehensive synergistic blend of biologicals and essential oils (derived from plants) quickly attack the malodour molecules, eliminating (not masking) the source of the problem. Safe for use on any water washable surface. Ideal for fire and flood restoration, and for problematic odours such as smoke, pet odours, urine, bathroom and locker room odours, as well as for drain line, grease trap and septic waste management.

FRESH AIRE (BULK)

BIO-COLADA

Biological Deodorizer, Digester and Cleaner - A concentrated biological product for intense odour conditions as found in waste management applications such as garbage trucks/ bins/chutes and disposal systems. Biological agents attack the source of odours, not simply masking them. Safe for use on all water-safe surfaces. Eliminates a wide range of malodours even the most severe.

CHERRY D; PLEASANT LEMON

CHERRY D

PLEASANT LEMON

For Extreme Odour Control – Developed to counter the most extreme malodour issues, including trash bins, garbage chutes, bathrooms / urinal odours, portable toilets, diaper pails, water damage mildew, smoke and decaying food remnant odours.

DEW FRESH (B); GREEN APPLE (B); SOLAR FLARE (B)

DEW FRESH

GREEN APPLE

SOLAR FLARE

Concentrated blend of reodorizers and deodorizers for use as a space spray and as an odour counteractant in heavy duty applications where lasting odour control is desired. Wherever they exist, malodorous conditions can be quickly brought under control with Fresh Aire products. Regular users of Fresh Aire products include restaurants, hotels, motels, schools, industrial plants, hospitals, churches, nursing homes, car dealers and housing authorities.

ASPHALT • CONCRETE • ROAD CONSTRUCTION

ASPHALT RELEASE AGENT - DILUTABLE BIO-BASED

A highly concentrated release agent. Dilutable up to a 1:30 ratio. Replaces diesel fuel and kerosene. Efficient on both standard and polymer based asphalt. Ideal for use on rubber tires of paving equipment. Biodegradable.

ASPHALT RELEASE AGENT - DILUTABLE SURFACTANT BASED

A concentrated dump box release agent. Solvent-free, water-based release agent. Plant Based, Non-Flammable, Non-Combustible. Dilutable up to a 1:10 ratio. Replaces diesel fuel and kerosene. Prevents asphalt from sticking to dump boxes and other paving equipment surfaces.

ASPHALT REMOVER LIQUID

100% active product for removal of heavy buildup on asphalt vehicles. Removes asphalt, tar, hardened grease, grime and oils. Also suitable for use on machinery, tools, automotive parts, and engines. Water thin product.

CONCRETE DESCALER

Concentrated, foaming low pH organic salt based concrete descaler for concrete and cement vehicles. To be used through foaming system. Quickly dissolves concrete and concrete dust. Also effective at removing grease, oils and general road grime. Non-fuming, non-corrosive to skin and mild steel, non-hydrochloric acid formula.

MOLECULAR CONCRETE REMOVER

Heavy duty concrete remover for the removal of heaviest concrete residues. Significantly less corrosive than mineral acids such as HCL. Ready to use formula, applied with foamer. Apply and let stand 2 hours to overnight. Safe for use on polished aluminum and soft metals. Readily Biodegradable.

RELEASE AGENT - RTU BIO-BASED

A ready to use, extremely efficient concrete and asphalt release agent. Replaces diesel fuel and kerosene. Ready to use product - do not dilute. Provides quick and easy release of concrete forms. Acts to eliminate adherence and keeps forms cle an. Efficient on both standard and polymer based asphalt, as well as rubber tires of paving equipment. Biodegradable.

AUTO & TRUCK CARE

3P (A)
Clean, beautify and protect almost any surface. Revitalize colour and pliability while inhibiting cracking, fading or hardening by blocking out ultraviolet rays, dirt, oxides, chemical vapours and oxygen. Absorbs and deactivates ozone. Waterproofs.

BRAKE CLEANER
A ready to use brake cleaner and degreaser for the quick, easy removal of brake fluid , grease, oil and other soils. Non-aerosol, non-chlorinated formula.

BUG SCRUB
Instant removal of dried bugs from bumpers, windows, rims and hoods on all automobiles, trucks and RV's.

CITRAL
Unique cleaner degreaser designed to dissolve, emulsify and suspend all types of soil conditions from a wide range of applications leaving surfaces clean with a pleasant citrus after scent.

DASHCOTE
Works great on all types of vinyl, leather and rubber surfaces like automotive seats, dashboards, rubber mouldings and tires. Restores and beautifies vinyl to its original condition.

EXPEL
Activated oxygen cleaner and degreaser for the removal of stains, mold, spots as well as odours. Provides colour safe bleaching.

FOAMY TRUCK WASH
Heavy duty, high foaming exterior truck cleaner for application through foamers. Removes grease, oils, road grime and diesel soot from industrial and construction trucks, commercial service vans, municipal and school buses or any vehicle which is subjected to severe soil conditions. Soft metal safe at all dilutions.

FOAMY VEHICLE WASH
Extremely concentrated (up to 1:100 dilution) high foaming product for exterior vehicle cleaning. Excellent in manual application cleaning.

GLASS-X
Brightens and cleans windows, mirrors and all hard surfaces. Contains no VOC's or ammonia.

AUTO & TRUCK CARE

MOONSHYNE

The EASY VEHICLE CARE PRODUCT. MoonShyne™ is the latest scientific formulation providing excellent vehicle washing properties along with a monomolecular protective barrier which gives not only finish protection but a beautiful lasting shine all in one simple application. Actually brightens vehicle colours and makes re-washing easier.

ODOUR OUT

State of the art technology is highly effective in controlling osmogenes that are present in undesirable odours. Eliminates malodours such as fish, sulfur, smoke, ammonia, onion, garlic etc. but does not eliminate desirable odours. Odour absorption is permanent as a binding of the odour takes place.

POWER WASH

Heavy duty lower foaming exterior vehicle cleaner for coin wash and mobile pressure wash applications. Removes road film, grease and oils from cars and trucks. Also provides excellent performance as a general purpose pressure cleaner in power wash applications, such as vinyl siding, concrete floors and wall cleaning.

RIMWASH

Highly effective for the cleaning of all types of automotive wheel rims.

BIO-AUGMENTATION/ BIO-TREATMENT

BACTii-GT

The latest development in the natural, biological treatment of waste in grease clogged grease traps, lift stations and drain fields. Powerful community of bacteria for the degradation and consumption of all types of grease trap containments - fats, oils and greases. The multiple strains of bacteria then go to work as in a waste water plant consuming organic waste. Powerful new liquid bacterial colonies. Excellent odour control.

BIO-COLADA

A powerful biological based liquid deodorant/digester. Ideal for use in waste management applications such as waste bins and garbage trucks.

BIOMASTER FRESH ENCOUNTER

A concentrated enzyme/biological all purpose cleaner with dual action odour counteractant system. A comprehensive synergistic blend of biologicals and essential oils (derived from plants) quickly attack the malodour molecules, eliminating (not masking) the source of the problem. For use in bathrooms and all purpose cleaning. Safe for use on any water washable surface. Ideal for fire and flood restoration, and for problematic odours such as smoke, pet odours, urine, bathroom and locker room odours, as well as for drain line, grease trap and septic waste management.

BIOMASTER ODOUR COUNTERACTANT

A concentrated enzyme/biological product for intense odours. Enzymes attack the source of the odour, not simply mask it. For use on all water-washable hard surfaces as well as carpets, upholstery and other fabrics. Eliminates mildew, smoke, bathroom and harsh kitchen/dumpster malodours.

BUGZZ's

Nature's own bio-energized biodegradable powdered waste digester. BUGZZ's is specifically blended to contain the natural facultative (aerobic and anaerobic) bacteria to breakdown and liquefy/decompose organic waste. This unique blend is designed to be used in grease traps, drains and mains, septic tanks and compost heaps in all industrial, institutional, municipal waste and farm applications.

LIQUID 8

Nature's own bio-energized biodegradeable liquid waste treatment combining the power of concentrated bacterial/ enzymatic activity in formula with grease cutting and odour counteracting "boosters" which safely and efficiently break down organics in drains, garbage disposals, grease, traps, porta-toilets, outhouses, septic systems, sewers, lift stations, wet wells, collection systems, sewage treatment facilities and lagoons while providing positive control of odour. CONTAINS NO HARSH ACIDS, CAUSTICS OR SOLVENTS • NON-CORROSIVE • NON-PATHOGENIC.

BIO-AUGMENTATION/BIO-TREATMENT

microSTIM™ BIO-AUGMENTERS

100% all natural concentrated proprietary formulas developed incorporating a unique blend of over 30 natural trace minerals, bio-activators (bacterial stimulators) and toxin renovators. microSTIM™ BIO-AUGMENTERS represent the newest generation of natural bio-augmentation generating improved biodegradation and odour control individually formulated for a wide range of applications. • BIODEGRADABLE • NON-CORROSIVE
NOTE: See specific products/applications listed below:

microSTIM™ – 700

Concentrated bio-augmenter for WASTEWATER TREATMENT PLANTS • DIGESTERS • LAGOONS improving biodegradation efficacy of organics and reduction of odours. microSTIM™ 700 optimizes the bio-chemical balance in wastewater, freeing naturally occurring bacteria to function at optimal rates. microSTIM™ 700 does its job and frees the naturally occurring bacteria to do theirs. microSTIM™ 700 is a breakthrough in the economic treatment of wastewater. Low chemical addition rates coupled with high rate of effectiveness and catalytic effects on existing system microbes provides low in-use treatment costs.

microSTIM™ – 725

Concentrated bio-augmenter for DRAINS • GREASE TRAPS • SEPTIC SYSTEMS. microSTIM™ 725 contains no bacteria, enzymes, surfactants or any other ingredient which might promote grease movement through the system, but rather acts to tie up harmful system toxins causing a reduction in the bio-availability of these contaminants thereby freeing naturally occurring microbial activity to function at optimal rates thus elevating both the rate and efficiency of organics break-down and odour reduction. Helps to maintain systems in an active, clean and free flowing condition with no harm to plumbing fixtures, grease traps, drain lines, sewers, field tiles, tanks or wastewater treatment facilities or equipment.

microSTIM™ – 770

Concentrated bio-augmenter for SEPTIC SYSTEM
Improves biodegradation of organics in SEPTIC SYSTEMS • DRAINS • SUMP WELLS • CESSPOOLS. microSTIM™ 770 contains no bacteria, enzymes, surfactants or any other ingredient which might promote grease movement through the system, but rather acts to tie up harmful system toxins causing a reduction in the bio-availability of these contaminants thereby conditioning the existing septic system environment, freeing naturally occurring microbial activity to function at optimal rates thus elevating both the rate and efficiency of organics break-down and odour reduction. Helps to maintain systems in an active, clean and free flowing condition with no harm to plumbing fixtures, drain lines, septic tanks or field tiles.

microSTIM™ – 775

Concentrated bio-augmenter for NATURAL POND TREATMENT
of LARGE AND SMALL PONDS • DECORATIVE WATER SYSTEMS • HOLDING PONDS. microSTIM™ 770 acts to tie up harmful toxins, freeing the water's naturally occurring purification process to function at optimal rates, therefore more effectively reducing and controlling pond organics (usually the primary nutrient source for algae and other undesirable aquatic growth). Harmless to humans and any aquatic life (birds, fish and plants).

microSTIM™ – 780

Concentrated bio-augmenter for COMPOST TREATMENT improving biodegradation of organics in COMPOST. microSTIM™ 780 yields superior stimulation to the natural microbial compost activity increasing the rate of decomposition and thereby producing maximum composting efficiency while at the same time providing excellent odour control including suppression of ammonia and hydrogen sulfide production.

BIO-AUGMENTATION/BIO-TREATMENT

WATERCO BIO-DIP

MULTI-STRAINED • HIGH CFU COUNT BACTERIAL SPORES in a hanging block. Eliminates organic wastes and odours - digests fats, oils and greases. WATERCO BIO-DIP reduces sludge build-up and breaks down fats, oils and greases that normally cause problems in wastewater collection lift stations. The block slowly dissolves releasing enzymes and live bacteria that will immediately begin the breakdown process. Block dissolves between 30-60 days depending on flow allowing for continuous unattended treatment.

WATERCO MICROBE-AID

HIGH POWERED POWDERED BLEND OF BACTERIAL SPORES. Specifically blended to contain the natural facultative (aerobic and anaerobic) bacteria to provide outstanding performance in low oxygen environment and liquefy/ decompose organic waste. This unique highly concentrated blend is designed to be used in anaerobic sludge digesters, lift stations, sludge lagoons, septic systems in all industrial, institutional, municipal waste and farm applications.

WATERCO MICROBE-AID (HC)

HIGH COUNT, HIGH POWERED POWDERED BACTERIAL SPORES WATERCO MICROBE-AID (HC) is a highly concentrated, scientifically developed, naturally bio-energized industrial strength waste degrader which uses the power of highly diverse strains of bacterial activity to efficiently break down organic waste as well as other difficult compounds. WATERCO MICROBE-AID (HC) works in either the presence or absence of oxygen and is capable of digesting a wide range of organics including cellulosic materials and other difficult compounds. When used on a regular basis WATERCO MICROBE-AID (HC) maintains systems in an active, clean and free flowing condition without harm to sewers, field tiles or tanks. WATERCO MICROBE-AID (HC) is most economical and effective for reseeding systems where bio-kills have occurred and for maintaining maximum bio-system efficiency on a long term basis in commercial, industrial, institutional, and municipal wastewater systems.

WATERCO NUTRI-DIP

CONCENTRATED MACRO & MICRO NUTRIENTS in a hanging block. Provides constant flow of nutrients and minerals. Promotes efficient processing of wastewater. WATERCO NUTRI-DIP contains macro and micro-nutrients plus minerals in a slow-dissolving carrier designed to release at a constant, unattended user-controlled rate. These essential nutrients and minerals promote efficient waste processing and support biomass through low-flow periods to help prevent 'ashing' and die-off. Each block can last from several days to as long as three months depending on flow and concentration of bacteria and turbulence. Higher concentration and turbulence can reduce life. Simply adjust placement to control release rate.

WATERCO PRETREAT

POWERFUL COMMUNITY OF BACTERIA FOR LIFT STATIONS and MORE. The latest development in the natural, biological treatment of waste in grease clogged drain fields, lift stations and grease traps. The powerful communities of natural bacteria break down grease, oil, fats, solids and paper. The multiple strains of bacteria then go to work as in a waste water plant consuming organic waste. The latest development in the natural, biological treatment of wastes in lift stations, pumping stations and mains.

WATERCO QUAT-X

LAKE and POND ALGAE CONTROL A specialized blend of bacterial cultures specifically selected and adapted for ecologically maintaining ponds, lakes, streams and other decorative bodies of water. It controls algae growth by competing with the algae for the available nutrients. This product is harmless to humans, birds, fish and plant life thereby providing biological control completely compatible with maintaining a natural ecological balance.

WATERCO SEPT-O-AID

(Water Soluble Pouches) - Aids in the elimination of sludge and solids which can build up in septic systems causing offensive odours, clogged pipes and system backups. Counters septic shock caused by large amounts of bleach, laundry detergents, grease and other household wastes. Used by industrial plants, home and cottage owners, resorts, hotels, farms or anyone having a septic system.

XLR 8™

NATURES OWN WASTE TREATMENT SYSTEM. Significantly improves waste system efficiency using natures own biodegraders. Highly concentrated, scientifically developed, naturally bio-energized waste degrader which uses the power of highly diverse strains of bacterial/ enzymatic activity to efficiently break down organic waste as well as difficult, non-biodegradable compounds (detergents, paper, oil, grease, hydrocarbons and phenols) in commercial, institutional, industrial and municipal wastewater systems. Works in either the presence or absence of oxygen and is capable of digesting compounds which are normally toxic to natural sewage bacteria. NON-CORROSIVE • NON-PATHOGENIC • STABLE.

DEGREASERS – INDUSTRIAL

AQUASOLV

Non-butyl cleaner-degreaser provides unequalled cleaning action by quick penetration and suspension of all types of water and oil based soils from any surfaces where water can safely be used. Effective in hot and cold, hard or soft water. Deodorizes as it cleans. Contains no butyl or other harmful solvents and is phosphate free. Rinses completely free of residue.

BREAKER

Concentrated non-butyl heavy duty cleaner. Fast, effective penetration of soils (dirt, film, grease, grime, lubricating and processing oils, syrup, juice, blood, protein, starch and fat), suspending them in solution allowing easy pick-up or flushing with water. Especially effective in food, beverage and meat processing plants and rendering operations.

CITRAMAX

Super-concentrated natural citrus-based industrial degreaser. Emulsifies petroleum/vegetable oils, animal fats and water based soils. Ideal for cleaning heavily soiled concrete floors. Dilutable in hot or cold water.

CRACKER

General and heavy duty cleaner and degreaser for walls, floors, machinery and equipment in industrial, manufacturing, food and beverage processing, institutional or commercial environments.

ECO-SOL

Quickly penetrates and dissolves all types of petroleum based lubricants, coatings and soils such as oil, grease, sludge, tar, pitch, ink, dye, sap, gum and wax allowing removal by wiping or water flushing. Water emulsifiable. Water rinsable. SAFE ON PAINTED SURFACES • CONTAINS NO CHLORINATED SOLVENTS.

ENVIROSOL™ (A/Bulk) - NATURES OWN SUPER DEGREASER!

AEROSOL

BULK

100% natural, environmentally agreeable, water emulsifiable degreaser for those tough degreasing and cleaning jobs. Quickly dissolves grease, oil, ink, adhesives, putty, wax, rubber marks, asphalt, tar and other tough soils allowing them to be easily wiped away, flushed off with water or left to air dry with minimal residue.

DEGREASERS – INDUSTRIAL

LIQUID GOLD

Heavy duty, water dilutable, 93% active formula for extreme cleaning/degreasing. Ideal for use in a multitude of applications including engine and equipment degreasing, ink removal, black mark removal (squash courts, hockey arenas), carpet spotting, grease trap/floor drain maintenance and deodorizing. Dilutable in hot or cold water.

POWER WASH

Heavy duty lower foaming exterior vehicle cleaner for coin wash and mobile pressure wash applications. Removes road film, grease and oils from cars and trucks. Also provides excellent performance as a general purpose pressure cleaner in power wash applications, such as vinyl siding, concrete floors and wall cleaning.

REFINERY DEGREASER

An aqueous surfactant based formulation that emulsifies and demulsifies hydrocarbons without emulsion breakers. A completely biodegradable solvent with a proven track record in the cleaning of pipelines and process vessels.

REFINERY DEGREASER WINTER FORMULA RTU

A ready to use solvent engineered with a depressed freezing point for applications that demand a lower freezing point. A proven track record in the cleaning of pipelines and process vessels in sub freezing conditions. Formulated to -27°C.

REZOLV

Quick penetration and removal of all types of soils (dirt, film, grease, grime, carbon, ink, lubricating and processing oils, juice, syrup, fat, blood, starch, organic waste, slime, rubber marks and floor dressings) from any surface not harmed by water alone.

SHOP LIFT

Super-concentrated (dilution 1:20-1:60) degreaser for all industrial surfaces. For floors/equipment in metal working shops and garages. Safe for use on soft metals such as aluminum. Low foaming, ideal for autoscrubbers. Non-butyl degreaser containing no VOC's or solvents.

UNISYN

CONCENTRATED LIQUID MULTI-USE CLEANER - Effective, highly concentrated synthetic detergent for the quick, economical removal of a wide range of soils. Safe on any surface not harmed by water alone. Excellent for use in food processing plants for removal of grease, oil and fat from machinery, equipment, walls and floors. Particularly effective for immersion and hand cleaning of parts.

ZYM-O-SOLV

Specially formulated enzyme fortified surfactant blend penetrates, emulsifies and allows easy removal of soil, grease, and oily deposits from industrial equipment, walls, floors, and work surfaces. Once soils are water rinsed from surfaces ZYM-O-SOLV formula promotes separation of oils and greases in holding tanks for easy removal and disposal. ZYM-O-SOLV doubles as a natural powered drain maintainer through the use of it's enzymes to trigger and augment the natural bacterial activity found in drains, lines and traps, thereby increasing consumption of organic waste and reducing undesirable buildups.

DISINFECTANTS & SANITIZERS

AQUAKLOR – DIN#02419947

Turns a garden hose into a powerful disinfecting sprayer. AQUAKLOR is uniquely designed to create a portable and easily stored compact system based on solid dispensing technology that eliminates messy mixing and hazardous handling while reducing shipping costs and storage space requirements. The scientifically designed AQUAKLOR system is a patented chlorine delivery system incorporating patented jacketed calcium hypochlorite caplets which literally turns water into magic. AQUAKLOR disinfects, sanitizes and is effective against fungi and viruses when used as directed. This safe, powerful commercial solution destroys organic contaminants while controlling algae and mold, aiding in the hygienic cleaning process and reducing the need for additional products. Whether you're looking for an environment friendly industrial disinfectant or a universal sanitizer that won't cause corrosion or chemical buildup, or a system that saves you time and money on expensive disinfectant cleaning solutions

- AQUAKLOR is the answer. Reduces the number of hazardous materials stored in the workplace in exchange for the more effective biodegradable AQUAKLOR System.

A-SAN - RTU HARD SURFCE SANITIZER

KILLS 99.9% OF GERMS • NEEDS NO RINSING • ALCOHOL BASED. A ready-to-use, fast drying hard surface (non-porous) sanitizer designed for use in washroom, kitchen, child care, health care, food service and food processing environments.

C-SAN - SODIUM HYPOCHLORITE 12%

CLEANS - SANITIZES - DEODORIZES - BLEACHES and REMOVES STAINS. Controls the growth of bacteria, mold, mildew and algae as well as for cleaning, sanitizing and deodorizing. Effectively bleaches and removes mold, mildew and stains. One of the most effective materials available for general sanitation purposes.

C-SAN RTU - DIN#02502992

A ready-to-use sodium hypochlorite based disinfectant for all "non-critical" hard, non-porous surfaces. Kills 99.99% of Bacteria/Fungi/Viruses. Provides effective cleaning and disinfection without dulling surfaces. Especially useful in health care, education and hospitality facilities as well as public and commercial buildings. Excellent for sanitizing food preparation and production equipment in all types of food and beverage handling facilities such as kitchens, restaurants, bars and food processing operations. Does not require rinsing when applied on non-food contact surfaces. Spray-on bathroom surfaces, kitchen cooking surfaces, cutting boards, cutting blocks, food grease and heavy soils. Use on tile and grout. Removes mildew stains. Effective odour control leaving a fresh long-lasting clean environment.

DISINFECTANTS & SANITIZERS

MILDEX-Q (L)

Fast and easy to use one step solution for the elimination and prevention of mold and mildew. Great for cleaning tile, grout, shower curtains, boat covers, camper canopies, convertible tops, vinyl awnings, under eves and trim, refrigerator gaskets, outdoor furniture, brick, concrete or wherever there is a possibility of mildew growth.

Q-SAN

Highly effective quat based sanitizer for use in meat, food and beverage industry. When used in conjunction with Mega-Lab cleaners it affords the most complete sanitation system available. NEEDS NO RINSING when used as directed. Great for use in restaurants and bars for general surface sanitizing as well as dishes, glasses, silverware, cutting knives and cooking utensils. COLOURLESS • ODOURLESS • NON-STAINING.

COVID-19 REGISTERED

NOTE: *These products are listed on Health Canada's website as being effective against Coronavirus SARS-CoV-2 the virus that causes COVID-19.

*PDQ SCENTLESS DISINFECTANT CLEANER – DIN#02477594

NEW FAST EFFECTIVE FORMULAS DISINFECT, CLEAN and DEODORIZE in ONE STEP • Kills 99.9% of Bacteria in just 5 Seconds !** - Kills SARS-CoV-2 (the virus that causes COVID-19) in 30 seconds!

A one-step germicidal disinfectant cleaner and deodorant designed for general cleaning, disinfecting and deodorizing of hard, non-porous inanimate surfaces. Quickly removes dirt, grime, food residue, blood and other organic matter commonly found in hospitals, health care facilities and on medical surfaces. It also eliminates odours leaving surfaces smelling clean and fresh. Use where odours are a problem. When used as directed, PDQ SCENTLESS DISINFECTANT CLEANERS are effective against a broad-spectrum of micro-organisms including bacteria, antibiotic resistant bacteria and viruses. R is formulated to disinfect any hard, non-porous, inanimate environmental surfaces such as floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. BLEACH-FREE • ALCOHOL-FREE • NON-ABRASIVE.

*TRIOSAN – DIN#00887374

Highly effective hospital grade all purpose disinfectant cleaner. Cleans, disinfects, deodorizes, sanitizes and is fungicidal and effective against listed viruses when used as directed. Contains a dual quaternary ammonium compound for maximum effectiveness against a broad range of micro organisms. Ideal for use in nursing homes, schools, institutions, public use facilities, veterinary hospitals, animal care and farming environments. Use anywhere that cross-contamination is a concern.

*Q-SAN PLUS – DIN#02497913

A highly effective disinfectant, sanitizer and virucide for use on pre-cleaned inanimate hard surfaces. Controls mold and mildew on hard, non-porous pre-cleaned surfaces. Deodorizes areas which are generally hard to keep fresh smelling and any other areas which are prone to odours caused by micro-organisms. Specifically designed for hospitals, food processing plants, dairies, restaurants, bars, animal quarters, kennels and institutions where disinfection, sanitization and deodorization is of prime importance. When used as directed, this product is formulated to disinfect pre-cleaned inanimate, hard surfaces such as walls, sink tops, tables, chairs, and bed frames. Deodorizes areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, pet areas and any other areas which are prone to odours caused by micro-organisms.

ENGINEERING

AIR CONDITIONING

ACC (A)
Foaming, aerosol, air conditioning coil cleaner with foam-back action, which dislodges embedded dirt, grease and smoke residue from the inside coils for easy removal.for the more effective biodegradable AQUAKLOR System.

COILBRITE
Powerful, concentrated, industrial strength condenser coil renovator and reconditioner. It quickly cuts through oily grime and industrial fallout impurities and oxidation. It allows air conditioning systems and units to operate at maximum efficiency.

COILENE
Non-acid, self-rinsing chiller and cooler coil cleaner. Following cleaning, the unit's own condensate will slowly wash away the grease and scum without rinsing.

CONPEL
Time controlled dissolving cartridge especially formulated to prevent sludge, rust, and other build-ups in condensate pans and drain lines. Lasts longer than liquids or powders.

HYDROTREET DS-5
A safe replacement for hydrochloric, muriatic and sulfamic acid solutions to effectively remove scale, lime, slime and algae which rapidly build up in condenser coils and pipes in circulating heating and cooling systems. Non-corrosive and therefore safe in almost all types of systems. Will not harm steel, copper, aluminum or wood.

DRAINS

BIO-DRIP
The latest development in the natural, biological treatment of grease laden drains and pipes. Used in sink drains, wash basins, shower stalls, bathtubs and floor drains in hotels, motels, restaurants as well as any industrial or institutional facility with a kitchen or washroom. Deodorizes and digests grease and waste naturally.

BIO-GEN (A)
A totally new and unique concept in drain maintenance. BIO-GEN FOAM for DRAINS is a bio-energized foaming drain cleaner combining the power of concentrated natural non-pathogenic bacteria in formula with citrus grease cutters and odour counteracting "boosters". Provides positive control of odour and the elimination of drain fly and insect sources. Maintains drains and lines in a clean and free flowing condition without the use of harsh chemicals or hazardous solvents. Does not harm plumbing fixtures, drains, traps, sewers or septic systems. Excellent for other areas where organic buildups occur such as under counters, around conveyors, walk-in coolers and behind baseboards or under and behind appliances.

DRAIN-B-GON (Liquid)
A highly effective non-acid liquid for rapid penetration and opening of all types of drains and pipes which are clogged due to fats, grease, cloth, paper, soap, scum, slime, hair as well as other cellulose and organic matter. For use in all types of drains and drainlines such as showers, bathtubs, sinks, urinals, floor drains, drinking fountains as found in industrial and food processing plants, institutional, commercial, public and municipal facilities. ALSO AVAILABLE IN GRANULAR FORMULA.

DRAIN B-GON (Granular)
Non-acid product developed for the treatment of hair and scum laden drains and pipes. This high energy granular product goes to work to provide rapid penetration, breakdown and degradation of organic deposits and blockages. Dissolves soap scum, slime and hair. ALSO AVAILABLE IN ODOURLESS LIQUID FORMULA.

MEG-A-THERM COBRA™ The Liquid Snake
Dissolves organic drain obstructions of all types thus eliminating the source of most drain odours. The only "drain snake" you'll need. Excellent for drain maintenance when used on a regular basis in fountains, sinks, tubs, floor drains, urinals, grease traps, septic tanks, cesspools and waste lines. Available in 1 Litre handle and 500 mL "Easy Grip" bottles for easy and safe handling.

CORROSION CONTROL

GALV-IT (A)
Aerosol cold galvanize spray providing full galvanized protection to all iron or steel surfaces exposed to rusting. Amazing break-through for full galvanized protection without hot zinc dipping.

RUST-O-LENE (A)
Rust converter/primer. A cementitious coating that is not based on normal resins, but which bonds like cement. Oxide pigments found in Rust-OLene prevent further rusting. Specially designed to chemically react to and stop rust, converting it to stable metal–organic compound that is paint ready.

MISCELLEANOUS

EMC (A)

Removing oil, grease, dirt, grime, wax and other soil films from both metallic and non-metallic surfaces. Non-flammable spray with a high dielectric strength, making it safe for use on any electrical equipment, even while in operation. Especially effective for use on all types of electrical equipment and machinery.

ENVIROSOL™ (A/Bulk)

AEROSOL

BULK

NATURES OWN SUPER DEGREASER! 100% natural, environmentally agreeable, water emulsifiable degreaser for those tough degreasing and cleaning jobs. Quickly dissolves grease, oil, ink, adhesives, putty, wax, rubber marks, asphalt, tar and other tough soils allowing them to be easily wiped away, flushed off with water or left to air dry with minimal residue.

ENVIRO-TERRA

A powerful, non-corrosive to skin, cleaner for removal of stubborn water scale, soap scum, rust stains, grease, mildew and mold. Effectively cleans stainless steel, terrazzo, quarry tiles, aluminum, copper, brass, concrete and brick. NO HARSH FUMES. BIODEGRADABLE.in industrial and food processing plants, institutional, commercial, public and municipal facilities.

FLEX-A-SIL (A) – RED

RTV Silicone. Gasket maker, sealant and adhesive. Replaces cork, paper, asbestos, felt and metal gaskets. High temperature and pressure resistance.

FLEX-A-SIL (A) – CLEAR/WHITE*/ BLACK

RTV silicone for caulking and sealing is ideal for use wherever a strong permanently elastic weatherproof caulk, sealant or adhesive is needed. Temperature resistant. Remains flexible and will not shrink, crumble or dry out. *White contains a mildewcide to help resist mildew growth.

FLEX-A-SIL – DIELECTRIC

Medium-consistency, translucent white, grease-like silicone paste. Creates moisture proof seal. Ideal for marine, aircraft, and automotive ignition systems. Lubricating and moisture proofing ignition systems, disconnect junctions, electrical assemblies and terminals, cable connectors and battery terminals; maintaining flexibility of natural and synthetic rubbers, vinyls, plastics, rubber and plastic O-rings.

LECTRONIC (A)

High purity electrical and electronic solvent specifically designed for fast evaporation. Perfect as a residue free electronic and electrical cleaner for sensitive electronic components and contacts.
NON-CONDUCTIVE • NON-FLAMMABLE.

MEGACOTE

A clear, non-drying, non-silicone, wax-like coating which safely protects surfaces from rust and corrosion, as well as adherence and subsequent build-ups of snow, ice, dirt, mud, salt, cold patch, asphalt, concrete and graffiti. Safe on painted finishes - does not discolour. Water resistant. Easily removed when desired.

RE-LEES™

Water based surface safe barrier coating which eliminates adherence and subsequent build-ups of glue/resin on gluing equipment in lamination, furniture and plywood operations, paper converting, carton and packaging lines. Provides light silicone-free surface lubrication for saw tables, slideways and other production type equipment. Prevents surface bonding of paints/coatings on spray booths and associated equipment, water walls and fume systems. Easy buildup removal via scraper, squeegee or hot water flushing.

FLOOR CARE

FLOOR FINISHES

ACRYLITE
16% Solids - Low Odour, Variable Maintenance Floor Finish - High performance low cost floor finish - ideal for bid/tender situations requiring a high level of performance. Fits into any low speed, burnishing or low maintenance system.

CHECKMATE
25% Solids - High Gloss/Performance UHS Floor Finish - Extremely responsive to burnishing, long lasting 25% solids floor finish for floors requiring a 'wet look' high gloss shine. Provides exceptional burnishing response and durability, making it an ideal product for high traffic/high grit burnishing environments.

CORRIDOR
20% Solids - High Performance UHS Finish - Provides a durable, soil resistant protection. Easy to apply and very responsive to burnishing. An excellent choice for high traffic/high grit environments and frequently burnished floors.

DURAGLOSS
20% Solids - Low Maintenance Floor Finish - The ultimate low maintenance, scrub and recoat floor finish. An extremely durable, scuff resistant finish - requiring less frequent burnishing or buffing in comparison to conventional finishes. Provides labour maintenance savings but also responds exceptionally well to frequent burnishing or buffing.

FORTRESS
18% Solids - Low Odour, Variable Maintenance Floor Finish - Low odour floor finish providing attractive gloss characteristics. May be burnished or spray buffed. Ideal for use in health care or other environments requiring a low odour product.

FLOOR SEALERS

FOUNDATION
Multi-Surface Sealer/Finish - A true sealer / finish, filling in pores of worn or porous floors. Acts as a base coat for any resilient or non-resilient floors, including terrazzo. Provides unsurpassed adhesion on substrates showing adhesion sensitivity (e.g. semi-porous unglazed ceramic/quarry tile and rubber/mondo floors). Excellent base coat or as a one product system for linoleum. Easily removed with conventional stripping agents.

FLOOR STRIPPERS

ECOASSURE™ FLOOR STRIPPER
Environmentally Compliant Floor Stripper - Extremely low odour, non-corrosive neutral pH stripper. Effective stripper on metal-interlocking zinc and non-zinc floor finishes.

ENVIROCLING
Clinging Baseboard Stripper - Quickly removes polymer film such as floor finish and sealer from baseboards. Sprayable from a trigger sprayer, providing excellent cling on vertical surfaces. Non-caustic, non-corrosive and low odour. Also excellent for equipment cleanup and light graffiti removal.

FULL FORCE
Sealer Stripper/Chemical Resistant Coating Stripper - Specifically formulated to remove the toughest coatings, including sealers, urethanes, and other products that resist conventional stripping agents. Fastest/strongest stripper in the market.

INSTANT STRIP
Free Rinsing Stripper - Free rinsing stripper for use with floor scrubbers for maximum performance, or in mop-on/mop-off situations. Low cost stripper ideal for bid/tender situations

LIBERATION
Concentrated, Free Rinsing Stripper - Free rinsing powerful stripper. Doubles as a no-machine stripper (mop-on / mop-off). Concentrated in comparison to other solvenated free rinsing strippers, effective at a dilution rate of up to 1:10.

POWERSTRIP
Heavy Duty Alkaline Stripper - Powerful stripper, specially formulated to release and remove the toughest burnished floor finishes. Highly effective at a 1:16 dilution rate

REDSTRIP
1:10 Alkaline Floor Finish Stripper - A cost effective, non-ammoniated floor finish stripper. Works well in high dilutions - effective at a dilution rate of 1:10 with cold water. The ultimate everyday product for all floor finish stripping needs.

CLEANERS/MAINTAINERS

GROUT OUT
Grout and Tile Brightener Cleaner - Heavy duty mild acid grout and tile cleaner/brightener recommended for deep restorative cleaning of ceramic, quarry tile and grout. Penetrates the pores of grout and tiles. Low foaming, allows for easy pick-up with an auto scrubber or other wet vacuum recovery systems.

NEUTRA-LIFE
Non-Acid Salt & Stain Remover - Unique, non-acid formula removes salt residues from floors and carpets. Also provides heavy duty cleaning action on all floors and carpets. A dual function (one-step) floor cleaner and salt stain remover.

POWER LEMON
Neutral pH Floor Cleaner - Highly concentrated, 'best-in-class' neutral cleaner, safe for use on all water-washable surfaces. Ideal for use as a routine floor cleaner. Low foaming for mop and buckets as well as auto scrubbers. May also be used on countertops and other surfaces requiring a streak-free, light duty cleaning. Lemon scent.

SPRAY BUFF
Spray Buff - Ready-to-Use (RTU) spray buff for all types of floors. Excellent gloss build and clarity. Suitable for use with low speed buffing equipment or high speed floor burnishers

TUFF SCRUB
Scrub and Recoat Cleaner - Formulated as a scrub and recoat cleaner prior to refinishing floors. Provides deep cleaning action without removing base coat floor finish. May also be used as an all-purpose cleaner on floors not coated with a floor finish. Low foaming, suitable for use with an autoscrubber or mop and bucket.

WINTER RINSE
Winter Salt Neutralizer - A free-rinsing liquid designed to neutralize all salts that accumulate during winter. Used for cleaning and maintaining asphalt, rubber, cork, linoleum, plastic, tile, terrazzo, marble ceramic and sealed wood floors.

FOOD SERVICE

CLEANER/DEGREASERS

BREAKER
Foaming Concentrated non-butyl heavy duty cleaner. Fast, effective penetration of soils (dirt, film, grease, grime, lubricating and processing oils, syrup, juice, blood, protein, starch and fat), suspending them in solution allowing easy pick-up or flushing with water. Especially effective in food, beverage and meat processing plants and rendering operations.

CRACKER
General and heavy duty cleaner and degreaser for walls, floors, machinery and equipment in industrial, manufacturing, food and beverage processing, institutional, or commercial environments.

ENVIROSOL™ (A/Bulk)
AEROSOL
BULK
NATURES OWN SUPER DEGREASER! 100% natural, environmentally agreeable, water emulsifiable degreaser for those tough degreasing and cleaning jobs. Quickly dissolves grease, oil, ink, adhesives, putty, wax, rubber marks, asphalt, tar and other tough soils allowing them to be easily wiped away, flushed off with water or left to air dry with minimal residue.

NUMBER ONE!
KITCHEN DEGREASER – Powerful general kitchen degreaser (equipment/floors). Non-butyl formula removes animal/vegetable based oils and greases. Unique odour control technology especially suited for kitchen malodours..

PINE ALL PLUS
Pine oil cleaner, especially suited for bathroom and general cleaning. Non-acid cleaner with no butyl or other solvents. Strong cleaning and deodourizing characteristics. Pleasant natural pine scent.

POWER LEMON
NEUTRAL CLEANER - Highly concentrated, 'best-in-class' neutral cleaner. Safe for use on all water-washable surfaces. Ideal for use as a routine floor cleaner. Low foaming for mop and buckets as well as auto scrubbers. May also be used on countertops and other surfaces requiring a streak-free, light duty cleaning. Lemon scent.

REZOLV
Quick penetration and removal of all types of soils (dirt, film, grease, grime, carbon, ink, lubricating and processing oils, juice, syrup, fat, blood, starch, organic waste, slime, rubber marks and floor dressings) from any surface not harmed by water alone.

FOOD SERVICE

SAF-D-SCALE
Safe, mild acid cleaning concentrate for the removal of lime, hard water salts and stains, oxidation, tarnish and cement or concrete dust deposits from aluminum, copper, brass, stainless steel, iron, masonry, concrete, plastic, fibreglass, and most painted surfaces. Improves efficiency of air conditioning, refrigeration, steam and water cooling coils. Safe and effective for cleaning sludge belts, digester lines and fine bubble diffusers in water pollution control plants.

SS BRITE
Stainless steel and aluminum cleaning concentrate. Safe, effective one step cleaning and brightening of stainless steel, aluminum, chrome, copper or brass. Removes hard water salts and stains, as well as surface rust and oxidation from production machinery and equipment, tables, tanks, vats, hoods, vent stacks, cooking coils and utensils in food, beverage and meat processing plants.

UNISYN™
CONCENTRATED LIQUID MULTI-USE CLEANER - Effective, highly concentrated synthetic detergent for the quick, economical removal of a wide range of soils. Safe on any surface not harmed by water alone. Excellent for use in food processing plants for removal of grease, oil and fat from machinery, equipment, walls and floors. Particularly effective for immersion and hand cleaning of parts.

ZYM-FS
Food service area enzyme fortified cleaner. A non-toxic biodegradable enzymatic cleaner which contains no acids or caustics. Specially formulated to penetrate, emulsify soil, grease, and oily deposits in food service equipment, walls, floors, and work surfaces. Use with a pressure washer/foamer to obtain maximum results.

DRAINS/GREASE TRAPS

BACTii-GT
Powerful new liquid bacterial colonies for the degradation and consumption of all types of grease trap containments - fats, oils and greases. Excellent odour control.

CAPSUL 8™
Effectively controls odour conditions where a surface blanket or cap is able to produce the greatest benefit or may provide maximum residual effect. A "true" odour counteractant - not a mask. Effective for garbage containers, lagoons, lift stations, settling tanks, privy and outhouse pits and holding tanks, sump wells/pits, elevator shafts, traps and floor drains, piggery and poultry excretement collecting systems and storage tanks or barn areas. Lasting residual effects. Safe and easy to use.

CAPTIVE 8™
Floating "natural" cleaning blanket breaks down and solubilizes grease, oil, fat, scum, slime and organic soils. Stops solidification and build-up on sidewalls, separators and float mechanisms in grease traps, lift stations, wet wells, sumps and septic tanks while it caps and controls odours with exceptional effectiveness, leaving only a light citrus fragrance. CONTAINS NO CHLORINATED SOLVENTS, PETROLEUM DISTILLATES, ACIDS OR CAUSTICS.

ECO-TRAP
The latest development in the natural, biological treatment of waste in grease clogged drain fields, lift stations and grease traps. The powerful community of bacteria start to break down grease, oil, fats, solids and paper. The multiple strains of bacteria then go to work as in a waste water plant consuming organic waste.

E-MULSE
Highly effective "natural" grease emulsifying formulation with exceptional odour counteractants to effectively break down and emulsify grease, oil, fat, scum, slime and organic soil build-ups in drains, grease traps, wet wells, sumps, sludge lines, lift stations, septic tanks and cesspool lines, while at the same time, counteracting odours "naturally" with exceptional effectiveness. Safe to use and environmentally compatible. CONTAINS NO CHLORINATED SOLVENTS, PETROLEUM DISTILLATES, ACIDS or ALKALIS

microSTIM™ 725
All natural concentrated proprietary formula developed incorporating a unique blend of over 30 natural trace minerals, bio-activators (bacterial stimulators) and toxin renovators. Represents the newest generation of natural bio-augmentation for the treatment of grease traps, septic systems, sump wells and cesspools. Contains no bacteria, enzymes, surfactants or any other ingredient which might promote grease movement through the system, but rather acts to tie up harmful system toxins causing a reduction

in the bio-availability of these contaminants thereby conditioning the existing grease trap environment, freeing naturally occurring microbial activity to function at optimal rates thus elevating both the rate and efficiency of organics break-down and odour reduction. Reduces system organics and odourous conditions, maintaining systems in an active, clean, odour free and free flowing condition without harm to plumbing fixtures, grease traps, drain lines, sewers, field tiles, tanks or wastewater treatment facilities or equipment

ZERO-FS

Bacterial activity gives complete digestion of fat and grease which causes blockages. Will help reduce BOD, COD, FOG and SS levels. Contains no acids, alkalies or solvents. Safe on all types of pipes. No toxic wastes discharged into the environment.

OVEN/GRIDDLE CLEANERS

ULTIMATE KITCHEN AID

Powerful deep-cleaning oven, fryer and griddle cleaner. Potent formula removes grease and baked-on carbon deposits. Odourless product makes it user friendly.

WIPE OUT (A)

An industrial strength oven and grill cleaner with built-in penetrants and biodegradable surfactants.

SANITIZERS/DISINFECTANTS

C-SAN

SODIUM HYPOCHLORITE 12% - CLEANS - SANITIZES - DEODORIZES - BLEACHES and REMOVES STAINS. Controls the growth of bacteria, mold, mildew and algae as well as for cleaning, sanitizing and deodorizing. Effectively bleaches and removes mold, mildew and stains. One of the most effective materials available for general sanitation purposes.

C-SAN RTU - DIN# 02502992

A ready-to-use sodium hypochlorite based disinfectant for all "non-critical" hard, non-porous surfaces. Kills 99.99 % of Bacteria/Fungi/Viruses. Provides effective cleaning and disinfection without dulling surfaces. Especially useful in health care, education and hospitality facilities as well as public and commercial buildings. Excellent for sanitizing food preparation and production equipment in all types of food and beverage handling facilities such as kitchens, restaurants, bars and food processing operations. Does not require rinsing when applied on non-food contact surfaces. Spray-on bathroom surfaces, kitchen cooking surfaces, cutting boards, cutting blocks, food grease and heavy soils. Use on tile and grout. Removes mildew stains. Effective odour control leaving a fresh long-lasting clean environment.

PDQ SCENTLESS DISINFECTANT CLEANER – DIN#02477594

NEW FAST EFFECTIVE FORMULAS DISINFECT, CLEAN and DEODORIZE in ONE STEP • Kills 99.9% of Bacteria in just 5 Seconds ! - Kills SARS-CoV-2 (the virus that causes COVID-19) in 30 seconds!**

A one-step germicidal disinfectant cleaner and deodorant designed for general cleaning, disinfecting and deodorizing of hard, non-porous inanimate surfaces. Quickly removes dirt, grime, food residue, blood and other organic matter commonly found in hospitals, health care facilities and on medical surfaces. It also eliminates odours leaving surfaces smelling clean and fresh. Use where odours are a problem. When used as directed, PDQ SCENTLESS DISINFECTANT CLEANERS are e ective against a broad-spectrum of micro-organisms including bacteria, antibiotic resistant bacteria and viruses. R is formulated to disinfect any hard, non-porous, inanimate environmental surfaces such as floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. BLEACH-FREE • ALCOHOL-FREE • NON-ABRASIVE.

FOOD SERVICE

Q-SAN

Highly effective quat based sanitizer for use in meat, food and beverage industry. When used in conjunction with Mega-Lab cleaners it affords the most complete sanitation system available. NEEDS NO RINSING when used as directed. Great for use in restaurants and bars for general surface sanitizing as well as dishes, glasses, silverware, cutting knives and cooking utensils. COLOURLESS • ODOURLESS • NON-STAINING.

Q-SAN PLUS - DIN#02497913

A highly effective disinfectant, sanitizer and virucide for use on pre-cleaned inanimate hard surfaces. Controls mold and mildew on hard, non-porous pre-cleaned surfaces. Deodorizes areas which are generally hard to keep fresh smelling and any other areas which are prone to odours caused by micro-organisms. Specifically designed for hospitals, food processing plants, dairies, restaurants, bars, animal quarters, kennels and institutions where disinfection, sanitization and deodorization is of prime importance. When used as directed, this product is formulated to disinfect pre-cleaned inanimate, hard surfaces such as walls, sink tops, tables, chairs, and bed frames. Deodorizes areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, pet areas and any other areas which are prone to odours caused by micro-organisms.

- Q-SAN PLUS is a broad-spectrum virucidal hard surface disinfectant that is expected to inactivate the SARS-CoV-2 virus (the virus that causes COVID-19).

TRIOSAN™ - DIN#00887374

Highly effective hospital grade all purpose disinfectant cleaner. Cleans, disinfects, deodorizes, sanitizes and is fungicidal and effective against listed viruses when used as directed. Contains a dual quaternary ammonium compound for maximum effectiveness against a broad range of micro-organisms. Ideal for use in nursing homes, schools, institutions, public use facilities, veterinary hospitals, animal care and farming environments. Use anywhere that cross-contamination is a concern. **- TRIOSAN DEODORIZING DISINFECTANT CLEANER is a broad-spectrum virucidal hard surface disinfectant that is expected to inactivate the SARS-CoV-2 (the virus that causes COVID-19).**

HOUSEKEEPING

BATH & ROOM CARE

BEAUTIFOAM (A)
High lustre lemon furniture polish. Dual action cleaner and polish for wood, vinyl, plastic, ceramic, porcelain, and painted metal surfaces.

BIO-8 (A)
Naturally bio-energized all-purpose foaming cleaner combining the power of concentrated nonpathogenic bacterial/enzymatic activity in formula with "Natures Own" grease cutting and odour counteracting "boosters" to safely and efficiently break down organics while providing positive control of odours. THE MOST "ENVIRONMENTALLY ACCEPTABLE" TYPE OF CLEANING PRODUCT AVAILABLE.

BIO-SOL
A uniquely formulated naturally bio-energized multi-purpose product which cleans as well as digests and liquifies organic waste, grease and food by-products while at the same time providing positive odour control and eliminating malodours at their source. BIO-SOL actually helps maintain waste/drain systems in an odour free, clean and free flowing condition with absolutely no harm to plumbing. Leaves fresh light fragrance which really means 'CLEAN'.

CRYSTAL (A/Bulk)
Great streak-free, non-ammoniated, easy to use glass, plastic and hard surface cleaner. Leaves no residue and will not haze. Produces a dust resistant surface to stay cleaner longer.

AEROSOL

BULK

GLISTEN!
Mild acid foaming bathroom cleaner - Dilutable foaming mild acid bathroom cleaner with no harsh fumes. Applied with a foamer, provides excellent cling to vertical surfaces. Effective against soap scum and hard water deposits. For use on all bathroom surfaces except natural marble. Contains powerful odour counteractant.

LAVOGRIT
Lotionized cream cleanser incorporating minute natural scrubbers to provide a safe yet superior polishing cleaner for a multitude of hard surface finishes. LAVOGRIT is bacteriostatic and deodorizes as it cleans leaving a light fresh clean fragrance. Super for removing grime, soap scum, hard water deposits, surface rust, scuff and rubber marks, and other stubborn soils and surface stains from ceramic, porcelain, formica, grouting, chrome, stainless steel, fibreglass, flooring and other hard surfaces. Even great for cleaning stained or dicoloured vinyl surfaces. Excellent as a non-acid bowl and urinal cleanser.

MILDEX-Q

Fast and easy to use one-step solution for the elimination and prevention of mold and mildew. Great for cleaning tile, grout, shower curtains, boat covers, camper canopies, convertible tops, vinyl awnings, under eves and trim, refrigerator gaskets, outdoor furniture, brick, concrete or wherever there is a possibility of mildew growth.

PINE ALL PLUS

Pine oil cleaner and deodorizer - Pine oil cleaner, especially suited for bathroom and general cleaning. Non-acid cleaner with no butyl or other solvents. Strong cleaning and deodorizing characteristics. Pleasant natural pine scent.

SAF-T-BOWL

Safe, efficient cleaning, disinfecting and deodorizing of urinals and toilets in one application. Highly concentrated formula of safety acid, thickeners, detergents and wetting agents provides exceptional surface cling ability allowing complete penetration and removal of lime and uric acid encrustations, scale and stains. Works to destroy microorganisms, eliminating the source of most odours, while leaving only a light, clean, fresh fragrance. Safe on vitreous china, porcelain, ceramic tile and grouting.

SPARKLE (A)

Superior non-streaking aerosol glass cleaner formulation that contains no unpleasant ammonia odours.

SST (A)

A unique one-step stainless steel cleaner and polish which restores natural brilliance and provides a protective coating to all stainless steel surfaces.

URIGARD REVOLUTION

Revolutionary optimal urinal protection and treatment consisting of a specially formulated transparent polymer disposable screen infused with optimized natural bacteria, odour counteractants and deodorants providing maximum odour control and cleaning properties for all types of urinals and connected drainlines. HONEYSUCKLE • SPICED APPLE • WINTERGREEN

CARPET CARE

BIO-8 (A)

Naturally bio-energized all-purpose foaming cleaner combining the power of concentrated nonpathogenic bacterial/enzymatic activity in formula with "Natures Own" grease cutting and odour counteracting "boosters" to safely and efficiently break down organics while providing positive control of odours. THE MOST "ENVIRONMENTALLY ACCEPTABLE" TYPE OF CLEANING PRODUCT AVAILABLE.

BIO-SOL

A uniquely formulated naturally bio-energized multi-purpose product which cleans as well as digests and liquifies organic waste, grease and food by-products while at the same time providing positive odour control and eliminating malodours at their source. BIO-SOL actually helps maintain waste/drain systems in an odour free, clean and free flowing condition with absolutely no harm to plumbing. Leaves fresh light fragrance which really means 'CLEAN'.

CARPET EXTRACTION CLEANER

Carpet cleaner for use in carpet extraction equipment. Concentrated, low foaming with pleasant but powerful odour control capabilities.

DEFOAMER

Vacuum Recovery Tank Defoamer Concentrate - Silicone based defoamer for use in any vacuum recovery system. Prevents excessive foaming. Ideal for autoscrubbers, wet vacs and extractors

NEUTRA-LIFE

Non-Acid Salt & Stain Remover - Unique, non-acid formula removes salt residues from floors and carpets. Also provides heavy duty cleaning action on all floors. A dual function (one step) floor / carpet cleaner and salt stain remover.

NON-BROWNING AGENT

Non-Acid Salt & Stain Remover - Neutralizes alkalinity after floor stripping. Prevents and removes oxidative browning in carpet extraction. Removes salt residues from floors and carpets.

PROSPOT

Carpet / Upholstery Spotter - Ready-to-Use (RTU) carpet and upholstery spotter for use on all water-washable carpets. Effective on a wide variety of oil and water based fabric spots. Thickened formula sits on carpet / upholstery - helping release imbedded fabric stains. Will not soak into carpet backing. Sprayable from a trigger sprayer.

TRAFFIC LANE CLEANER/PRE-SPRAY

Prespray / Bonnet Buff / Spotter - Traffic lane prespray for carpets prior to extraction. May also be used as a bonnet buff (spin clean) product, as well as a dilutable carpet spotter. Powerful grease cutting and soil removal abilities from carpets.

DETERGENTS

CITRA-SOLV
A unique blend of organic solvents. Free-rinsing liquid, multi-purpose product which is safe, efficient and easy to use. Its balanced blend of surfactants and detergents results in a biodegradable, effective renovator.

CONDO BRITE
A viscous, gel-type hard surface floor and tile maintainer and cleaner. Highly cost effective method for rejuvenating floor and tile grout. It leaves a fresh orange fragrance.

ECOASSURE™ NEUTRAL CLEANER
Environmentally Compliant Floor Cleaner - A commercially neutral cleaner with biodegradable surfactants. Meets the criteria contained in all major North American Environmental Standards. Safe for use on all water-washable surfaces. Low foaming, with a pleasant odour counteractant.

ENVIRO-TERRA
A powerful, non-corrosive to skin, cleaner for removal of stubborn water scale, soap scum, rust stains, grease, mildew and mold. Effectively cleans stainless steel, terrazzo, quarry tiles, aluminum, copper, brass, concrete and brick. NO HARSH FUMES. BIODEGRADABLE.

HARDBALL
Spray & Wipe - Heavy duty, dilutable spray & wipe cleaner for use on all hard surfaces - including walls, countertops, sinks, equipment or other surfaces requiring marker, pen, pencil, grease, oil and general soil removal. Contains advanced odour counteractants - leaving surfaces clean and fresh.

ODORITE
Chemically counteracts foul offensive odours. Dissolves grease and oily soils quickly and effectively. Used in and around garbage areas, garbage compactors, drainage ditches, waste water systems, septic tanks, lagoons, and oxidation ponds, around kennels, veterinary hospitals, urinals, cancer wards, nursing homes and institutional facilities.

POWER LEMON
Neutral pH Floor Cleaner – Highly concentrated, 'best-in-class' neutral cleaner, safe for use on all water-washable surfaces. Ideal for use as a routine floor cleaner. Low foaming for mop and buckets as well as autoscrubbers. May also be used on countertops and other surfaces requiring a streak-free, light duty cleaning. Lemon scent.

SUPER CITRA-KLEEN
Heavy Duty Citrus Degreaser - Concentrated natural citrus based degreaser and multi-purpose cleaner for most water-washable surfaces. Emulsifies petroleum / vegetable oils, animal fats and water based soils. Dilutable in hot or cold water. Strong deodorizing capabilities, with pleasant natural citrus orange scent.

UNISYN
CONCENTRATED LIQUID MULTI-USE CLEANER - Effective, highly concentrated synthetic detergent for the quick, economical removal of a wide range of soils. Safe on any surface not harmed by water alone. Excellent for use in food processing plants for removal of grease, oil and fat from machinery, equipment, walls and floors. Particularly effective for immersion and hand cleaning of parts.

GRAFFITI

DISSOLVE CITRUS
100% Active RTU Grease/Tar/Asphalt/Ink/Graffiti Remover - 100% active, citrus based RTU product. Formulated for the removal of asphalt, heavy grease, tar, asphalt, ink and graffiti. Water thin formula. Readily rinsable in water.

ENVIROCLING
Clinging light Duty Graffiti Remover - Quickly removes polymer film such as floor finish and sealer from baseboards. Sprayable from a trigger sprayer, providing excellent cling on vertical surfaces. Non-caustic, non-corrosive and low odour. Also excellent for equipment cleanup and light graffiti (inks, marker) removal.

VANDEX (A)
Gel-type graffiti mark remover using a newly developed clinging formulation with a penetrating solvent action to remove most types of spray paint, marking pen marks, etc. from most hard surfaces.

GREEN PRODUCTS

E-BOWL

TOILET and URINAL CLEANER - Safe, yet efficient cleaning of urinals and toilets in one application. Highly concentrated formula provides exceptional penetration and subsequent removal of organic soils, lime deposits and stains. Acts to loosen and remove lime/rust deposits in drain lines without damaging pipes or fixtures. Great for de-liming shower walls and glass. NO STRONG FUMES • LEAVES SPARKLING CLEAN SURFACES • FORMULATED TO REPLACE HARSH ACID CLEANERS

E-KLEEN

MULTI - PURPOSE CLEANER CONCENTRATE powered by HYDROGEN PEROXIDE and CITRUS for quick penetration and removal of all types of soils from any surface not harmed by water alone. LIGHT DUTY for glass, mirror and stainless steel cleaning, general floor cleaning and auto scrubbers. MEDIUM DUTY for mopping washrooms and heavily soiled floors and for bonnet cleaning of carpets. HEAVY DUTY to clean and deodorize urinals, toilets, counters and fixtures, shower and locker room cleaning, deodorize and remove soap scum and oil, tile and grout cleaning, general degreasing, urinal and garbage odour eliminator, carpet extraction pre-spray and heavy spot remover (extract with water). STREAK FREE CLEANING • ELIMINATES ODOURS • NO FUMES • PROVIDES COLOUR SAFE BLEACHING.

E-KLEER

GLASS & HARD SURFACE CLEANER - Streak-free removal of soil, oil, grease, pollutants and insect residues from glass and plastic surfaces (eg: windows, counter tops, auto glass, mirrors and displays). Extremely effective for quick spray and wipe cleaning of ceramic, enamel, chrome, stainless steel and polished metals.
NO FLASH POINT • FAST DRYING • NO FUMES

E-SCRUB

CONCENTRATED LOTION CLEANSER - Rich, clinging, non-acid lotion cleanser with natural mini-scrubbers for the removal of grime, soap scum, hard water and deposits, surface rust, scuff and rubber marks, and other stubborn soils and surface stains from ceramic, porcelain, formica, chrome, stainless steel and other hard surfaces. Excellent as a non-acid bowl and urinal cleanser. Phosphate Free - Biodegradable - Safe for Septic Systems. REMOVES RUST and POLISHES METALS • REMOVES SCUFF and RUBBER MARKS EASILY • SAFE FOR USE ON STAINLESS STEEL, CULTURED MARBLE, PORCELAIN, GLASS, FIBREGLASS AND ACRYLIC WHEN USED AS DIRECTED.

E-WASH

NEUTRAL CLEANER CONCENTRATE - Highly effective, controlled sudsing detergent for quick, economical removal of a wide range of soils from all types of flooring (eg: resilient tile, quarry tile, terrazzo and concrete). Specifically formulated for use via either automatic floor scrubbers or manual floor cleaning methods. Excellent for use on floors in food processing and industrial plants, warehouses, shopping malls and stores. HIGHLY CONCENTRATED • LIFTS AND SUSPENDS SOIL • NO RINSING REQUIRED • RESIDUAL FREE • ECONOMICAL TO USE.

E-ZOLV

MULTI - PURPOSE CLEANER and DEGREASER CONCENTRATE - Quick penetration and removal of all types of soils (dirt, film, grease, grime, lubricating and processing oils, syrup and organic waste) from any surface not harmed by water alone. NO CAUSTICS • NO HARMFUL SOLVENTS • NO FUMES.

ECOASSURE™ CITRUS CONCENTRATE

Environmentally Compliant Degreaser - Citrus-based degreaser and multi-purpose cleaner for most water washable surfaces. Non-corrosive, neutral pH product. Excellent for use as a dilutable spray and wipe. Meets the criteria contained in all major N.A. Environmental Standards.

ECOASSURE™ FLOOR STRIPPER

Environmentally Compliant Floor Stripper¬ - Extremely low odour, non-corrosive neutral pH stripper. Meets the criteria contained in all major N.A. Environmental Standards. Effective stripper on metal-interlocking zinc and non-zinc floor finishes.

ECOASSURE™ GLASS CLEANER

Environmentally Compliant Glass Cleaner - Ready-to-Use (RTU) glass cleaner. Meets the criteria contained in all major Canadian Environmental Standards. Non-streaking formula leaves glass and mirrors sparkling.

LAUNDRY CARE

DETERGENTS

FORWARD EMUSLIFIER

A enzyme activated emulsifier, very effective in removing insoluble soil particles and protein-based soils at temperatures up to 140 F. All the biodegradeable surfactants provide rapid wetting, emulsification, soil removal and controlled foaming. The proprietary blend combines several soil specifics to act on a wide range of stains.

OXY-DET

Highly effective blend of surfactants and detergents formulated for use in a variety of laundry applications. Contains excellent soil suspension ingredients to prevent redeposition. It works effectively in all water conditions and soil classifications. OXY-DET is chelated for ensured effectiveness in all water conditions. Its penetrating and emulsifying ability prevents fabric greying due to soil redeposition. OXY-DET has excellent wetting capabilities, is safe on all types of fabrics and is phosphate free. It's cost effectiveness makes it an excellent product to use in heavy soil conditions. OXY-DET can be used in a single operation or in combination with other additives.

SUDS

A highly effective blend of surfactants and detergents formulated for use in a variety of laundry applications. SUDS contains excellent soil suspension ingredients to prevent redeposition. It works effectively in all water conditions and all soil classifications. SUDS is chelated for ensured effectiveness in all water conditions. Its penetrating and emulsifying ability prevents fabric greying due to soil redeposition. SUDS has excellent wetting capabilities, is safe on all types of fabrics and is phosphate free. It's cost effectiveness makes it an excellent product to use in heavy soil conditions. SUDS can be used in a single operation or in combination with BUILDER.

ADDITIVES

BUILDER
Provides alkalinity and promotes detergency on light, medium and heavily soiled wash loads. It is a highly alkaline builder containing sequestrant and cmc specially formulated to provide optimum results when used in conjunction with SUDS. BUILDER adds additional power to remove the most difficult soil on oil based stains. It contains additional optical brighteners to prevent greying and discoloration.

CHLORINE BLEACH 12%
Specially formulated for general sanitation, disinfecting and bleaching.

LAUNDRY PRE-SPOTTER
Treats a broad spectrum of laundry stains including protein, juices, oils, and many others. This spotter can be used as a spotter, pre-soak, or pre-spotter to remove even the toughest stains.

OXYGEN BLEACH
Oxygen activated cleaner that penetrates surfaces and attacks soil build-up, destroys odours like urine and garbage and provides colour-safe bleaching on any surface. It removes organic stains and restores tile and grout. OXYGEN DESTAINER is non-hazardous to people.

SOFTENER
A liquid product that is automatically injected into the final rinse cycle. It is designed to be used for a wide variety of fabrics and leaves a fresh, clean fragrance. In addition, SOFTENER prevents bed rashes from rough linen while promoting easier ironing, lint free fabric and reducing static electricity.

SOUR
A free flowing liquid which is used in the rinse cycle. It will neutralize or reduce the fabric pH to ensure skin compatibility. Sour also has unique iron removing ingredients to prevent soaking and rewashes while providing a whiter appearance.

LUBRICANTS/RELEASE AGENTS

DRI-LUBE (A)

PTFE based lubricant/release agent. Non-staining dry lubricant replaces graphite and other old-fashioned dry lubricants.

LUBITOL (A)

A VERITABLE TOOL BOX IN A CAN! Penetrates, lubricates, displaces moisture, cleans and provides a protective coating.....AND non-flammable too! High dielectric strength for added safety and does not contain chlorinated solvents. THOUSANDS OF USES.

LUBRIFLEX (A)

Penetrates, lubricates and provides continuous protection for cables, chains and wire ropes. Temperature, pressure and wear resistant. Does not break down, even under conditions of water, salt or chemical exposure. Maintains cable and wire rope flexibility. Leaves light grease-like coating to protect against rust and corrosion.

LUBRISIL (A/Bulk)

AEROSOL

BULK

COLOURLESS, ODOURLESS PURE FOOD GRADE SILICONE developed especially for use in food processing and packing industries. High quality, dry, friction reducing film for use on all types of surfaces including metal, painted and unpainted, glass, rubber, plastic and fabric. Wide temperature application range. Will not stain or discolour. NO CHLORINATED SOLVENTS!

MEG-A-LOOSE (A)

A high solvency penetrating oil that quickly cuts through dirt, corrosion and scale to creep into parts that have frozen due to corrosion.

MEGALUBE 123 GREASE

Synthetic lubricating grease for every phase of lubrication. Does not wash out, even when subjected to boiling waters and temperatures to 260°C (500°F). Effective on equipment operating at 2,500 RPM.

MEGALUBE WP GREASE

Synthetic lubricating grease for every phase of lubrication. It cannot be washed out even when subjected to high RPM, boiling waters and temperatures to 204°C (400°F).

MICROLUBE (A)

Dry micronic friction reducing film for lubricating and providing a high temperature anti-friction, anti-seize micronic film of molybdenum disulphide which is fast drying and exhibits superior adherence properties to all metals, glass, rubber and most plastics. Withstands extreme temperatures and pressure. Inert to water, oil, alkalies and acids. NON-CONDUCTIVE • NONCORROSIVE • WATERPROOF.

TEFSYN (A)

Penetrates deeply on application, then quickly sets up to a high performance, high impact, heavy duty, semi-transparent, PTFE impregnated synthetic grease with unique cohesive and adhesive action that keeps surfaces coated with PTFE film even under high pressure, extreme temperatures and high speeds. Extremely resistant in the face of harsh environments such as water and detergent wash-out, oxidation, acid, dirt and salt spray. Protects against friction, wear and corrosion.

FOOD GRADE LUBRICANTS

LUBRICOTE (A/Bulk)

AEROSOL

BULK

Colourless, odourless and tasteless PURE LIQUID PETROLATUM U.S.P. food grade oil film for lubrication and/or rust and corrosion protection of any parts on food processing, handling and preparation equipment especially where exposure to edible product is of concern. Wide temperature application range. Highly resistant to water wash-off. Contains no solvents or silicone.

LUBRISIL (A/Bulk)

AEROSOL

BULK

COLOURLESS, ODOURLESS PURE FOOD GRADE SILICONE developed especially for use in food processing and packing industries. High quality, dry, friction reducing film for use on all types of surfaces including metal, painted and unpainted, glass, rubber, plastic and fabric. Wide temperature application range. Will not stain or discolour. NO CHLORINATED SOLVENTS!

RELEASE AGENTS

ASPHALT RELEASE AGENT - DILUTABLE BIO-BASED

A highly concentrated release agent. Dilutable up to a 1:30 ratio. Replaces diesel fuel and kerosene. Efficient on both standard and polymer based asphalt. Ideal for use on rubber tires of paving equipment. Biodegradable.

ASPHALT RELEASE AGENT - DILUTABLE SURFACTANT BASED

A concentrated dump box release agent.
Solvent-free, water-based release agent. Plant Based, Non-Flammable, Non-Combustible. Dilutable up to a 1:10 ratio. Replaces diesel fuel and kerosene. Prevents asphalt from sticking to dump boxes and other paving equipment surfaces.

RELEASE AGENT - RTU BIO-BASED

A ready to use, extremely efficient concrete and asphalt release agent. Replaces diesel fuel and kerosene. Ready to use product - do not dilute. Provides quick and easy release of concrete forms. Acts to eliminate adherence and keeps forms clean. Efficient on both standard and polymer based asphalt, as well as rubber tires of paving equipment. Biodegradable.

RE-LEES™

Water based surface safe barrier coating which eliminates adherence and subsequent build-ups of glue/resin on gluing equipment in lamination, furniture and plywood operations, paper converting, carton and packaging lines. Provides light silicone-free surface lubrication for saw tables, slideways and other production type equipment. Prevents surface bonding of paints/coatings on spray booths and associated equipment, water walls and fume systems. Easy buildup removal via scraper, squeegee or hot water flushing.

ODOUR CONTROLS

BACTii-OF

A naturally bio-energized foaming odour neutralizer and waste treatment combining the power of high powered odour counteracting "boosters" and concentrated bacterial/enzymatic activity in formula with grease cutting additives which safely and efficiently provides positive control of odour while at the same time breaks down organics. BACTii-OF eliminates malodours while working to maintain systems in a clean and free flowing condition with no harm to floats, pumps or tanks. BACTii-OF's powerful odour neutralizing bacterial action was specifically designed to quickly eliminate odours from open organic sources such as lift stations, wet wells, sumps, grease traps, garbage facilities, wastewater plants and compost operations as well as commercial property, restaurant, industrial and food processing plant waste handling areas.

BAN-O-DOR

For Extreme Odour Control Issues - Formulated to address the most offensive malodour issues, including garbage bins / chutes, bathroom / urinal odours, diaper pails, water damage mildew, smoke and decaying food remnant odours. Original Ban-O-Dor essential oil blend.

BIO-COLADA

Dual Action Enzyme Odour Counteractant and Cleaner - A concentrated enzyme / biological product for intense odours. Enzymes attack the source of the odour, not simply masking it. For use in heavy duty odour conditions as found in waste management applications. Excellent combination cleaner and odour control for applications such as garbage trucks, garbage bins and chutes and any other equipment where heavy odour and organic soil conditions exist. Also effective as well to aid in treatment of drain lines, grease traps and septic waste systems.

BIOMASTER ODOUR COUNTERACTANT

A unique and comprehensive synergistic blend of biologicals and essential oils (derived from plants) quickly attack the malodour molecules, eliminating (not masking) the source of the problem. Safe for use on any water washable surface. Ideal for fire and flood restoration, and for problematic odours such as mildew, smoke, pet odours, urine, bathroom, locker room and harsh kitchen/dumpster malodours.

ODOUR CONTROLS

CAPSUL 8™

Effectively controls odour conditions where a surface blanket or cap is able to produce the greatest benefit or may provide maximum residual effect. A "true" odour counteractant - not a mask. Effective for garbage containers, lagoons, lift stations, settling tanks, privy and outhouse pits and holding tanks, sump wells/pits, elevator shafts, traps and floor drains, piggery and poultry excrement collecting systems and storage tanks or barn areas. Lasting residual effects. Safe and easy to use.

CAPTIVE 8™

Floating "natural" cleaning blanket breaks down and solubilizes grease, oil, fat, scum, slime and organic soils. Stops solidification and build-up on sidewalls, separators and float mechanisms in grease traps, lift stations, wet wells, sumps and septic tanks while it caps and controls odours with exceptional effectiveness, leaving only a light citrus fragrance. CONTAINS NO CHLORINATED SOLVENTS, PETROLEUM DISTILLATES, ACIDS OR CAUSTIC.

CITROLENE™

TRUE NATURAL ODOUR COUNTERACTANT - Quickly, effectively counteracts odours anywhere, especially where environmental or safety concerns exist. Simply mix with water and apply by spraying, wiping, washing, mopping, or cold fogging (using electric or air pressure atomizers) as required for control of odours. Particularly useful to replace petroleum or chlorinated solvent based products which are undesirable or not permissible. LONG TERM RESIDUAL EFFECTIVENESS • HIGHLY CONCENTRATED • LOW ORDER OF TOXICITY • BIODEGRADABLE

LIMIN8™

A unique new compound that offers significant advantages for the treatment of hydrogen sulfide with chemistry that specifically targets hydrogen sulfide, organo-sulfur compounds and mercaptans. LIMIN8™ is a truly safe product that is useful to industries, wastewater treatment, and petro-chemical refining for removal of foul smelling sulfurous chemicals from waste systems and the atmosphere. LIMIN8™ is a highly effective sulfide scavenger and acid eliminator across a wide range of applications. Controls hydrogen sulfide and mercaptans in wastewater treatment facilities, digesters, sludge tanks, lagoons and lift stations. Excellent for use in the counteraction of hydrogen sulfide, mercaptans and foul odour conditions through atomizing, spraying or fogging methods for safely removing poisonous and corrosion-causing hydrogen sulfide, mercaptans, and foul odours from a wide variety of locations such as above tanks, settling ponds or lagoons, sludge dewatering areas, lift stations, air gaps, manholes, and culverts.

LIQUID 8™

Nature's own biodegradable bioenergized liquid waste treatment combining the power of concentrated bacterial/enzymatic activity in formula with grease cutting and odour counteracting "boosters" which safely and efficiently breaks down organics in drains, garbage disposals, grease, traps, porta-toilets, outhouses, septic systems, sewers, lift stations, wet wells, collection systems, sewage treatment facilities and lagoons while providing positive control of odour. CONTAINS NO HARSH ACIDS, CAUSTICS OR SOLVENTS • NON-CORROSIVE • NON-PATHOGENIC.

WATERCO DEO-BLOC

A paradichlorobenzene based deodorant block which is highly effective in controlling odours. Unique mesh hanger makes it safe and easy to hang. Effective for up to 120 days. For use in sewers, manhole covers, elevator shafts, garbage collection areas, water treatment facilities etc. CONCENTRATED CHERRY SCENT

WATERCO ODOR-X

Chemically reacts with the H2S to break it into harmless molecules within minutes. As the reaction continues, the excess gasses are completely eliminated. Excellent for use in and around wastewater treatment plants, drainage ditches, wastewater systems, septic tanks, lagoons, and oxidation ponds as well as in areas where detergents, oils, greases, and sludge tend to accumulate. VANILLA SCENT.

WATERCO ODOR-XSF

Chemically reacts with the H2S to break it into harmless molecules within minutes. As the reaction continues, the excess gasses are completely eliminated. Excellent for use in and around wastewater treatment plants, drainage ditches, wastewater systems, septic tanks, lagoons, and oxidation ponds as well as in areas where detergents, oils, greases, and sludge tend to accumulate. FLORAL SCENT.

SKIN CARE/HYGIENE

HAND SOAPS

CLEAR UNSCENTED HAND SOAP

Unscented, clear and colourless lotion hand soap for heavy grease and soil cutting. Luxurious feel that is suitable for all hand washing applications where non-fragrance is desired.

GREEN-X

Heavy-duty liquid hand cleaner with pumice scrubbers. Lanolin free for those with problem and sensitive skins. Contains no harsh petroleum or citrus solvents. Concerns of long term skin and blood stream exposure to solvents is eliminated. GREEN-X is the hand cleaner for people who REALLY GET THEIR HANDS DIRTY! Printers, roofers, mechanics, miners, well drillers, plumbers, air conditioning contractors, erectors, firemen, building engineers and farmers are all getting down to GREEN-X. Removes grease, grime, oil, paint, varnish, shellac, printers ink, asphalt, tar carbon, rust oxides, cements, glue, adhesive and many other industrial soils.

PINK LOTION HAND SOAP

Opacified pink lotion hand soap for heavy grease and soil cutting. Suitable for all hand washing applications. Luxurious feel with a subtle pleasant fruit fragrance.

WAREWASH

DETERGENTS

AUTOMATIC DISH DETERGENT

Specially formulated for use in mechanical dishwashing/glass washing machines and automatic hood washers. This non-foaming product is safe to use on ceramics, glass, plastic ware and ferrous metals when used according to directions. Rapidly removes heavy soils, has water hardness tolerance and helps prevent lime and scale build-up on equipment.

ALL TEMP DETERGENT

Unique low temp formulation for use in mechanical dishwashing/glass washing machines and automatic hood washers. This non-foaming product is safe to use on ceramics, glass, plastic ware and ferrous metals when used according to directions. Rapidly removes heavy soils, has water hardness tolerance and helps prevent lime and scale build-up on equipment. Suitable for use in glass washing machines.

NOTE: Automatic detergent formulations specifically developed for Soft Metal, Plastic, Hard Water and Glass Washing applications are also available.

MANUAL POT & PAN

Specially formulated concentrate for use as a hand dishwashing detergent. It is mild and gentle to the skin yet provides rich, foamy suds even in extremely hard water and rinses freely without hard water spotting and streaking. Holds a steady suds level while emulsifying grease and oil as well as loosening caked on foods from dishes, utensils, glassware, pots and pans.

LIQUID PRESOAK

Designed for both stainless steel and silverware. Used at recommended concentrations, Liquid Presoak effectively loosens and removes all heavy soils from both stainless and silverware without changing the finish. Liquid Presoak's unique formula is safe for all silverware. • Safe on aluminum, tin, magnesium and other metals. • Powerful, safe cleaner removes most soils • Retains its strength throughout the cleaning cycle.

WAREWASH

DESCALERS

LIMEX
Concentrated low foaming cleaner/descaler. Formulated to quickly attack hard water scale, calcium and stains from stainless, glassware and ceramics. Ideal for use as a dishwasher descaler (spray-on and cycle through). Also effective against unsightly kitchen surface stains/scale such as on coffee pots.

SAF-D-SCALE
Removal of lime, hard water salts and stains and oxidation from aluminum, copper, brass, stainless steel, iron, masonry, concrete, plastic, fibreglass, and most painted surfaces. Improves efficiency of air conditioning, refrigeration, steam and water cooling coils.

SANITIZERS

SANITIZER 12%
Sodium Hypochlorite based formulation for general sanitation, disinfecting and bleaching.

Q-SAN
The final product to be used for sanitizing in the Food Processing Industry. When used in conjunction with Mega-Lab cleaners, the maintenance personnel are afforded the most complete sanitation system available. FOOD PROCESSING EQUIPMENT - for sanitizing surfaces previously cleaned, rinse surfaces with potable water and then sanitize using Q-SAN sanitizing solution. No rinsing required. RESTAURANT & BAR RINSE – for dishes, glasses, silverware, cutting knives, cooking utensils, wash with Mega-Lab detergent, rinse thoroughly with potable water and then immerse in sanitizing solution of Q-SAN. NEEDS NO RINSING.

RINSE AIDS

DISH WASHER RINSE
Specially formulated rinse additive designed for use with automatic injection systems. NON-FLAMMABLE
• NON-CORROSIVE • BIODEGRADABLE • PHOSPHATE FREE

IODA RINSE
Low-foaming iodophor based cleaner/sanitizer for use in food plant and restaurant industries. Ideal for sanitizing glasses, dishes and equipment. In addition, it may be used on floors, walls, countertops, refrigerators and food storage areas. Will not leave streaks or spots on glassware or dishes.

NOTE: Rinse aid formulations specifically developed for Soft Metal, Plastic, Hard Water and Glass Washing applications are also available.

WASTEWATER

BUGZZ's

Specifically blended to contain the natural facultative (aerobic and anaerobic) bacteria to break down and liquefy/decompose organic waste. This unique blend is designed to be used in grease traps, drains and mains, septic tanks and compost heaps in all industrial, institutional, municipal waste and farm applications.

CAPSUL 8™

Effectively controls odour conditions where a surface blanket or cap is able to produce the greatest benefit or may provide maximum residual effect. A "true" odour counteractant - not a mask. Effective for garbage containers, lagoons, lift stations, settling tanks, privy and outhouse pits and holding tanks, sump wells/pits, elevator shafts, traps and floor drains, piggery and poultry excrement collecting systems and storage tanks or barn areas. Lasting residual effects. Safe and easy to use.

CAPTIVE 8™

Floating "natural" cleaning blanket breaks down and solubilizes grease, oil, fat, scum, slime and organic soils. Stops solidification and build-up on sidewalls, separators and float mechanisms in grease traps, lift stations, wet wells, sumps and septic tanks while it caps and controls odours with exceptional effectiveness, leaving only a light citrus fragrance. CONTAINS NO CHLORINATED SOLVENTS, PETROLEUM DISTILLATES, ACIDS OR CAUSTIC.

CITROLENE

TRUE NATURAL ODOUR COUNTERACTANT - Quickly, effectively counteracts odours anywhere, especially where environmental or safety concerns exist. Simply mix with water and apply by spraying, wiping, washing, mopping, or cold fogging (using electric or air pressure atomizers) as required for control of odours. Particularly useful to replace petroleum or chlorinated solvent based products which are undesirable or not permissible. LONG TERM RESIDUAL EFFECTIVENESS • HIGHLY CONCENTRATED • LOW ORDER OF TOXICITY • BIODEGRADABLE.

FOAM BUSTER

Instantly effective and economical control for reducing or eliminating foam conditions in aqueous solutions caused by detergent spills or other foaming effluents in wastewater treatment even where extreme pH conditions exist or in operations where agitation produces undesirable foaming. EFFECTIVE IN WARM, COLD, HARD or SOFT WATER.
NON-TOXIC • NONSTAINING • NON-CORROSIVE • NON-FLAMMABLE.

WASTEWATER

LIMIN8™

A unique new compound that offers significant advantages for treatment of hydrogen sulfide with chemistry that specifically targets hydrogen sulfide, organo-sulfur compounds and mercaptans. LIMIN8™ is a truly safe product that is useful to industries, wastewater treatment and petro-chemical refining for removal of foul smelling sulfurous chemicals from waste systems and from the atmosphere. Highly effective sulfide scavenger and acid eliminator across a wide range of applications. Controls hydrogen sulfide and mercaptans in wastewater treatment facilities, digesters, sludge tanks, lagoons and lift stations.

microSTIM™ – 700

CONCENTRATED BIO-AUGMENTER FOR WASTEWATER TREATMENT - An all natural concentrated proprietary formula developed incorporating a unique blend of over 30 natural trace minerals, bio-activators (bacterial stimulators) and toxin renovators. microSTIM™ 700 represents the newest generation of natural bio-augmentation for the treatment of wastewater systems, digesters and lagoons. microSTIM™ 700 contains no bacteria, enzymes or surfactants, but rather acts to tie up harmful system toxins causing a reduction in the bio-availability of these contaminants and freeing naturally occurring microbial activity to function at optimal rates thereby elevating both the rate and efficiency of organics break-down and odour reduction. Contains proprietary additives to actively reduce H2S levels and associated gas/odour levels. microSTIM™ 700 provides positive stimulation ("Bio-Boosters") of the naturally occurring system bacterial activity, particularly those being negatively effected by harmful toxins. microSTIM™ 700 reduces system organics and odour conditions, maintaining an active microbial population without harm to wastewater treatment facilities or equipment.

microSTIM™ – 770

CONCENTRATED BIO-AUGMENTER FOR SEPTIC SYSTEMS – An all natural concentrated proprietary formula developed incorporating a unique blend of over 30 natural trace minerals, bio-activators (bacterial stimulators) and toxin renovators. microSTIM™ 770 represents the newest generation of natural bio-augmentation for the treatment of septic systems, sump wells and cesspools. microSTIM™ 770 contains no bacteria, enzymes, surfactants or other ingredient which might promote grease movement through the system, but rather acts to tie up harmful system toxins causing a reduction in the bio-availability of these contaminants thereby conditioning the existing septic system environment, freeing naturally occurring microbial activity to function at optimal rates thus elevating both the rate and efficiency of organics break-down and odour reduction. Reduces system organics and odourous conditions, maintaining systems in an active, clean, odour free and free flowing condition without harm to plumbing fixtures, drain lines, septic tanks or field tiles.

WATERCO BIO-DIP

Durable, stable-dose solid blocks for use in problem lift stations, wastewater facilities, lagoons, grease traps and septic tanks. Slowly releases billions of digesting bacteria to immediately begin to reduce sludge build-ups and break down fats, oils and greases that normally cause problems in wastewater collection lift stations. Dissolves between 30-60 days depending on flow, thus allowing continuous treatment to eliminates organic wastes and odours. Naturally weighted for vertical suspension below the grease layer.

WASTEWATER

WATERCO DEO-BLOC

A paradichlorobenzene based deodorant block which is highly effective in controlling odours. Unique mesh hanger makes it safe and easy to hang. Effective for up to 120 days. For use in sewers, manhole covers, elevator shafts, garbage collection areas, water treatment facilities etc. CONCENTRATED CHERRY SCENT

WATERCO MICROBE-AID

Water soluble paks containing specifically blended natural facultative (aerobic and anaerobic) bacteria to provide outstanding performance in low oxygen environment for liquification/decomposing of a wide range of organic wastes. This unique concentrated blend is designed to be used in anaerobic sludge digesters, lift stations, sludge lagoons, septic systems in all industrial, institutional, municipal waste and farm applications.

WATERCO MICROBE-AID (HC)

Specifically blended to contain super concentrated natural facultative (aerobic and anaerobic) bacteria to provide maximum performance in low oxygen environments to liquefy/decompose organic waste. The freeze dried spore form is in a suspended state rather which activates only when mixed with water. This unique super concentrated blend is designed to be used in anaerobic sludge digesters, lift stations, sludge lagoons, septic systems in all industrial, institutional, municipal waste and farm applications.

WATERCO ODOR-X

Chemically reacts with the H2S to break it into harmless molecules within minutes. As the reaction continues, the excess gasses are completely eliminated. Excellent for use in and around wastewater treatment plants, drainage ditches, wastewater systems, septic tanks, lagoons, and oxidation ponds as well as in areas where detergents, oils, greases, and sludge tend to accumulate. VANILLA SCENT.

WATERCO ODOR-XSF

Chemically reacts with the H2S to break it into harmless molecules within minutes. As the reaction continues, the excess gasses are completely eliminated. Excellent for use in and around wastewater treatment plants, drainage ditches, wastewater systems, septic tanks, lagoons, and oxidation ponds as well as in areas where detergents, oils, greases, and sludge tend to accumulate. FRESH FLORAL SCENT.

WATERCO POLYSOLV

Used in waste water treatment plants for the clean up and maintenance of polymer spills, blinded press belts, sticky rollers, press frames, residual in centrifuges, holding and mixing tanks, vacuum filter - coils or other media.

WATERCO PRETREAT

The latest development in the natural, biological treatment of wastes in lift stations, pumping stations and mains. Natural bacterial blend acts to break down grease, oil, fats, solids and paper.

WATERCO SEPT-O-AID

(water soluble pouch) - Aids in the elimination of sludge and solids which can build up in septic systems causing offensive odours, clogged pipes and system backups. Counters septic shock caused by large amounts of bleach, laundry detergents, grease and other household wastes. Used by industrial plants, home and cottage owners, resorts, hotels, farms or anyone having a septic system

XLR 8™

NATURES OWN WASTE TREATMENT SYSTEM - Significantly improves waste system efficiency using natures own biodegraders. Highly concentrated, scientifically developed, naturally bio-energized waste degrader which uses the power of highly diverse strains of bacterial/enzymatic activity to efficiently break down organic waste as well as difficult, non-biodegradable compounds (detergents, paper, oil, grease, hydrocarbons and phenols) in commercial, institutional, industrial and municipal wastewater systems. Works in either the presence or absence of oxygen and is capable of digesting compounds which are normally toxic to natural sewage bacteria.
NON-CORROSIVE - NON-PATHOGENIC - STABLE.
