BUZZ-OFF
TO THE RESCUE

BLASTER CAP
BLAST 'EM RIGHT
OUT OF THE AIR

BUZZ-OFF Wasp & Hornet Blaster is an indispensible tool to commercial and industrial service personnel who are responsible for maintaining roof-top or exterior type air conditioning and heating units, telecommunication equipment, hydro electric equipment, gas and oil lines and pumping stations, signal and switching controls or any other outside type of building or equipment maintenance. These types of equipment are the perfect nesting places for wasps, hornets, bees and other unpleasant flying menaces. They can pose a serious hazard to service personnel who have no place to retreat or find immediate cover and especially where potential allergic reaction may be involved.

BUZZ-OFF REACHES NESTS MORE THAN 6 METERS (20 FEET) ABOVE GROUND AND HAS A 41.0 KV DIELECTRIC STRENGTH FOR ADDED SAFETY!

HAVE NO FEAR!

THE INSTANT KNOCK-DOWN POWER PACKED INTO EVERY CAN

is like having a protective shield in your tool box

Simply **AIM** and **BLAST**
at your flying or nested enemies

and..... watch them drop!!
